## TSA Accepted Combination Lock

## SET YOUR OWN COMBINATION

The padlock is preset to open at 0-0-0. You can change and reset your combination as often as you like by following these steps:

1. Use a pointed object to push the reset button **a** in and hold down
2. While holding down reset button **a**, turn the dial **b** to your desired combination. Aligning numbers with the grid line **c**. And make sure it's a combination you can remember **d**
3. When you are done, release the reset button **a** and you've reset the lock
4. Open the lock by dialling your combination **b** and pressing down button

Using this Travel Sentry® Approved lock allows your luggage to be opened, inspected and relocated by security authorities without damage.

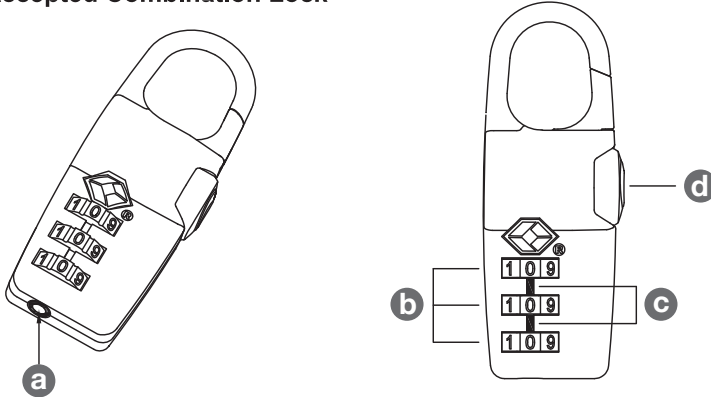

**Note:** The Transportation Security Administration (TSA) screeners and airline check-in staff at airports are trained to recognize the Travel Sentry mark. They understand that baggage with locks displaying this mark are permitted to remain locked. The TSA screeners are able to open these locks in the event that the baggage must be inspected. With Travel Sentry Approved locks TSA can screen checked baggage faster, without having to break open locks.
